Did this bounty have no deadline?

I think if someone wants to go for a bounty a sort of deadline would be easy. Like say in time OR if other software pops up that does the trick also the bounty is cancelled / transfered.

Lets just see how far Marcin has gotten and how future updates are handled. As in, is it open source.

Anyhooo. I think transferring the bounty to OWB and Netsurf is a good idea IF Marcin can not show anything.
