Splitting up the bounty is a no go. The bounty was created with Sputnik in mind and people donated for that. Also a port of MUI4 would also take who knows how long.

Another thing is that AFAIK people have tried to obtain the sourcecode of MUI4 but can't get in contact with Stuntz.

Regarding elastic deadlines. I agree and Marcin have also had 13 months to do the port. Keep in mind that is a port from an amiga like platform, not a totally foreign structure.
