So why this doesn't happen with other bounty ??

Just to remember, Allegro is stalled from more than 1 year now and it is just a "stupid" library (and anyone doesn't see any grabs of it too) not to mention to other bounty like Amizilla (2003) althought is it made by other maintainer, anyway I didn't see a lot of people claim money back ...

Where are they ?

Where are the Amizilla donors, why he didn't claim his money back cause fake porting, I can see them only now with Sputnik port ...
