Hi @Elwood

...we give money to Paypal...

I'm not sure what you mean? If i buy goods from AmigaKIt, they get the money via PayPal.

All the developers here at Amigans.net were paid via PayPal by me. I'm certain PP didn't keep any. I'm sure there are exchange rates from US dollars to GBPounds and Euros.

...Would something similar possible?

Your idea of a private bank for Amigans won't work, but some kind of Credit Union might.

In a CU, all the members would be share holders and volunteer operations:

The problem might be working at an international level.
