You just need to copy some fonts: from your previous OS4 backup partition and also an environment directory, envarc:wordworth.

The following are required to update your sys:partition to run wordworth:-

Quote:

Libs/digitafont.library
Libs/digitaintellifont.library
Libs/digitapostscript.library
Libs/digitatruetype.library
Fonts/WW_LasejetIII_CG_Times
Fonts/WW_LasejetIII_Line_Printer
Fonts/WW_LasejetIII_Univers
Fonts/WW_PS_Palatino
Fonts/WW_STANDARD_PICA
Prefs/Env-Archive/Wordworth/

Just copy accross from your OS4.1 partition.
