Oh my dear...

New hard disk - same problem:

[sii3114ide/ata\_rw\_blocks] unit 1 lba28 read error 73, retries left : 4

Now I'm somewhat lost - what shall I do now? Has someone an idea what I should do next? I suppose now it's \*not\* a hard disk error but something else, but I don't know where to search the cause...
