I would like to thanks you again, this time personally, about your work on the MUI part of MUI-OWB (and because I have seen, when I have read the other thread, that you really need that and this is why I have opened this thread 😊

Without your help, more than 83x MUI-OWB users cant use for the first time MUI-OWB on their AOS4 computer.

I'm verry sorry that this task have pushed yourself too high and you need a big break now. In another hand, IMHO 99% of the job is allready made. I hope you will found, maybe, the motivation to help the amiga community again, on MUI-OWB project. Maybe new thanks posts of this thread will give you a better feeling verry soon 😊

Thanks again for the MUI-OWB team, MUI maintainer for AOS4 and Fab for this joined common force, great developments 😊
