Definitely the best browsing experience I have had in a long time.

To have modern CSS capability with a useable interface and fully featured browser is brilliant.

The only problems I have are that I cannot login to Lloyds TSB online banking or Natwest Online banking, I get a silly error message saying they have had to log me off - even before I have actually managed to log in. The same happened in RA-OWB too.

So I still have to use IB (Netsurf also works) to login to these two banks 😞
