Deadline is 30th of August as originally proposed. I could, of course, also call an early ending, if one or all of you feel overburned and exhausted...? In any case, I recommend that all entities involved try and look away from stuff like The Prize, prestige, rank etc. and focus more on what is good for the community and it's constituent members... including yourself ;)

EDIT: And by the way, please direct any frustration involved towards me, as I am presently the only one able to fix things within Qt. In particular, if you feel the need for fixing, I am better available through email, as I get easily distracted looking at threads in here.
