@BSzili

goodness! we certainly seem spoilt for choice here. i'm a huge fan of single-player first-person shooters, so i suppose my #1 request would be porting the darkplaces engine. thereafter i'd love to see platformers like cave story and any racing games like TORCS.

but basically i'd just like to thank you for joining the community and adding your talents. it's hugely appreciated, as are the donations from so many to make it happen.
