I re-upload on depot 1.9 version with that small font's config thing, and, as expected for granted, not everyone read readme where i point that its only pure-lame fix just to avoid problems for newcomers and start to think that its some real update.

@os4depot\_admins

It is possible to block Helgis with all his schizophrenic comments to avoid us read it on os4depot's comments ?  
Maybe some sort of registration to avoid posting from anon-users ?
