I'd say helgis' account was hacked and the last comment was done by someone else, but not helgis himself. His last two comments don't really match word-wise and especially the last one doesn't sound like helgis. Take a look at the two comments. He seems to have changed his mind from "thumbs up, you did a good job" to "you are an idiot" within just 2 hours. I cannot believe this. This really sounds like a comment from a spammer, but not like helgis.
