"(Resizing the window does not let the missing figures appear. Seems to be a bug?)"

If you width up the window, you don't see the whole number for
Cache L1 Read 64 and write 64 ?

Regarding your SysMon grab, actually you see "1363" and "1363" but it miss a number, it should be "1363x".
You don't see it even if you size up the window ?
