that because i use datafiles from mos version, while for os4 masonss ones, and that image just wasnt done. and saving of prefs needs because base app name now odyssey (so name of mui config different)

@phantom

sure, send me version for 1.23. as for youtube : if you use youtube.js then download from fabs page 0.95 version of youtube.js

@samo

yep, done different, code different, i just left it as on mos (maybe someday will try to reuse joergs code there)
